COMING SOON: Medical Research Council UK-China antimicrobial resistance initiative

*** The Medical Research Council, the Economic and Social Research Council, the Biotechnology and Biological Sciences Research Council and the National Natural Science Foundation of China will soon be inviting proposals for their UK-China antimicrobial resistance initiative. The closing date will be in mid-February 2016 and further call details will be announced in early December 2015. The objective of this Newton Fund call will be to deliver significant two- to three-year research funding for internationally competitive and innovative collaborative projects between researchers from China and the UK on the topic of antibacterial resistance. A joint workshop in order to scope and refine the call topic will take place on 24 to 26 November 2015 in Shanghai, China. ***
